

## **Triple Nozzle Fogger and BioWorld Odor Neutralizer(BON CC-41) Instructions**

To prepare the dilute solution in the fogger, add 8-12 ounces BON-CC-41 to a gallon of distilled water in the fogger reservoir.

Fog the solution under the home and in all rooms of the home. Close doors and shut windows after fogging rooms.

Use 1-2 gallon tank sprayer to apply BON solution directly to affected areas under the home and around foundation. For tank sprayer, add 12 ounces BON to 1 gallon of distilled water.

Adjust application amount and frequency depending on severity of odors. Fogger application may need to be completed 2 - 3 times to fully eliminate odors.
